No problem! If I knew she was CA I would have just given it through Michele. But then if she had any questions, you would probably need to send her to me. Take care!

Hello Katharine,

I'm Bruce Kobelski from EPA, OGWDW-HQ in Washington DC, and I'm providing you with the electronic files of the documents you requested on EPA's Mid-course Evaluation (1989) and the Class II ADCOM (1992).

I was a UIC manager at that time and responsible for these documents, and so I can answer any questions you may have once you review them. They were produced by our Office in order to advise the Agency on potential revisions that might have been needed regarding implementation of the Class II program. We provided these to the General Accountability Office (GAO) for their recent 2014 study focused on this part of the UIC program. As we indicated to GAO, they are very dated documents.

Feel free to respond via email or call me at (202) 564-3888 at your convenience. Bruce
